

SWEET BEACH BEACHFRONT LAND

 Saint Peter, Barbados

An exceptional beachfront opportunity on the Barbados Platinum Coast, Sweet Beach is anchored on a significant parcel of sought after real estate along a quiet stretch of the St. Peter shoreline.

This property is uniquely positioned for those looking to build without typical wait times, as it comes with full Town and Country Planning approvals already secured.

The sale includes a thoughtful design by renowned architect Michael Gomes for an expansive seven bedroom villa. Engineered across three tiered levels to optimize the land's fullest potential, the design offers generous living spaces that effortlessly flow together, featuring open plan layouts that masterfully invite nature inside.

Every element harnesses the most impressive aspect of the site, the stunning beach view, while the proposed residence includes a private spa, a gym, and an elevator lift accessing all floors. A standout rooftop pool offers panoramic vistas of the Caribbean Sea, providing a clear head start on construction while allowing a new owner the freedom to personalize the final details of their coastal sanctuary.
