

BAY STREET 2 BEDROOM

 Christ Church, Barbados

This charming two-bedroom unit oozes earthy character and charm from the natural materials that its talented owner has used to offer guests a comfortable space with lots of personality. To get to the beach you literally cross the road and walk about 50 meters to the beach access, and you are on one of the best beaches in the Caribbean. With shops, restaurants, nightlife all within easy walking distance and Bridgetown only 15 minutes walk, this is truly a very central location rendering a hire car as surplus to requirements.

There are two units at the property, this 2 bed and an adjoining 1 bed unit with its own private patio. The two units share a private access to the shared garden patio area to the side of the property. The owners of the property are contemplating using the back of the property as a restaurant/coffee shop which would make the space even more interesting. That is unlikely to happen before early 2021. Between now and then the property will be available for the guests staying in the two units only and very quiet. Once the rear of the property is in operation there will of course be more activity at the property. You can ask us for an update if you are interested in booking.

Also available for mid-term rent at US\$1,800 plus utilities
