### **ABOUT THE APARTMENTS –**

Nestled in peaceful, fully enclosed tropical gardens on a quiet residential street, these four private, self-contained apartments provide internet and streamed tv, ceiling fans, safes, and have AC available in the bedrooms on a coin operated system. For those of you who love to cook, the kitchens are well equipped. The lounge areas are comfortable, and have books and games for those rare rainy days. All of the units have en suite shower rooms. Each apartment has its own covered deck/patio allowing you to enjoy an outdoor dining experience.

**Cinnamon Cottage** – is a spacious one bedroom apartment with a king size bed, large shower room and private plunge pool/jacuzzi, offering just a hint of luxury, at a very reasonable rate.

**Ginger Cottage** – the smallest of the three available units, is eminently suitable for one person, but with its very comfy queen bed, it has accommodated two very successfully on many occasions. The living area is studio style, with the en suite bedroom separate.

**Demerara Cottage** – a medium size apartment with slightly “colonial” style of decor. It has a king size bed which can be two singles if preferred. This unit can be rented together with Ginger as a two bedroom unit but only from 15 April to 15 October.

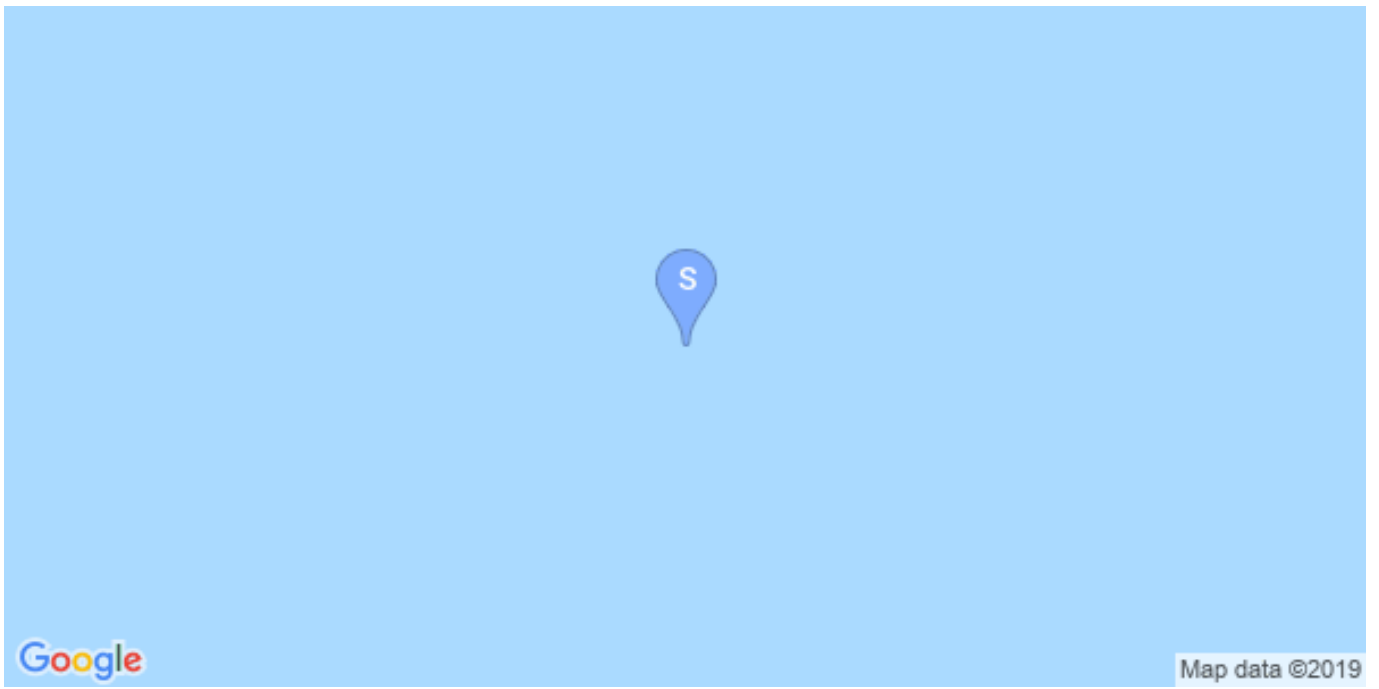

**Saffron Studio** - this property is occupied by our full time resident with her two very sweet little dogs, Gabbi and Humbug. They love attention so please feel free to pet them. If that's not your thing, just ignore them and they will very quickly lose interest in you.
