

MANGO BAY, WESTON, ST. JAMES, BARBADOS - BEACHFRONT

Saint James, Barbados

With a reputation for being one of the most beautiful residences in Barbados, this recently restored natural coral stone house has an old-world ambience. The Palladian style of British stage designer Oliver Messell results in a blending of the residence with its surroundings which include, lush tropical gardens, the living room flowing harmoniously onto a patio that offers a view of memorable sunsets on the calm Caribbean Sea through a number of limestone arches. Paths leading to a dining pagoda by the ocean and a lily pond, further integrate the property into the landscape. The dining pavilion seats fourteen and is perfect for entertaining near the swimming pool. The house consists of 5 bedrooms - 3 double bedrooms in the main section, each with an en suite bathroom, a single bedroom and a master suite with 2 single beds, adjoining marble bathroom, and two telephone lines. All bedrooms are air-conditioned. Two additional double bedrooms can be found in the cottage on the compound.
