### Description

This charming family home is available for sale in a quiet residential development. It consists of 3 bedrooms, 2 bathrooms, living and dining rooms, a generous sized kitchen, laundry room and a bonus room which can be used as a fourth bedroom, study or any other use depending on the new owners needs. Two of the bedrooms have built in closets and share a bathroom, while the master is ensuite, with walk in closet. There is also air conditioning in all three bedrooms, great for those hot days, although the rooms tend to be cool as the area is quite breezy. The house sits on a decent sized lot of just over 7000 square feet. There is good parking to the front, in addition to a covered carport. There is also a charming roof deck just above the carport.
