## #101 PORT ST. CHARLES

Saint Peter, Barbados

This spectacular 3 bedroom Villa is located on the North beach. A private covered garage on the lagoon side, that leads into the kitchen, or an intimate pathway that leads to the front door. Either one takes you into a wide spacious home steps away from the beach. Off from the kitchen you can stay in the cool living and dining room, or out to one of the two patios, into the plunge pool, outdoor dining, or the pathway to the beach. The choice is yours. This unique positioning of villa 101 affords the extra privacy and light that is second to none. Upstairs on the middle floor there are two identical bedrooms. Both are en-suite and have large dressing and cupboard areas. One faces the sea and beach, the other, the lagoon. A gasp of delight is what you will hear from yourself when you see the master bedroom and en-suite bathroom. Cathedral ceilings and wide open spaces make you feel like you are in heaven. The marble bathrooms has a separate shower and hot tub, large dressing rooms and vanities. All the rooms have patios with views of the beach. Truly wonderful.
