BEAVA

#102 PORT ST. CHARLES

Saint Peter, Barbados

This spectacular recently renovated 4 bedroom Villa is located on the North beach of Port St Charles. A private covered garage on the lagoon side, that leads into the kitchen, or an intimate pathway that leads to the front door. Either one takes you into a wide spacious home steps away from the beach. Off from the kitchen you can stay in the cool living and dining room, or out to the patio, into the plunge pool, outdoor dining, or the pathway to the beach. The choice is yours. Upstairs on the middle floor there are two identical bedrooms. Both are ensuite and have large dressing and cupboard areas. One faces the sea and beach, the other, the lagoon. A gasp of delight is what you will hear from yourself when you see the master bedroom and ensuite bathroom. Cathedral ceilings and wide open spaces make you feel like you are in heaven. The marble bathrooms has a separate shower and hot tub, large dressing rooms and vanities. All the rooms have patios with views of Port St. Charles. Truly wonderful.
