

CATTLEWASH, WHITE CAPS

Saint Joseph, Barbados

'White Caps' is nestled on the rugged hillside of the East coast of Barbados, an area known for its untouched rugged beauty. This hillside home provides a haven complete with unobstructed panoramic views from Pico Teneriffe to Martin's Bay and cooling, tropical trade winds. The upper balcony takes your breath away as it opens the upper floor to the gentle sound of waves crashing on the Atlantic side of the island and creates an idyllic setting to enjoy meals or doze off in a hammock. The 8' x 10' pool on the upper deck provides a cooling retreat for those who opt to sit in the uncovered area of the balcony. This three storey home provides the facility for a supplemented income by way of the self-contained second floor which could either be rented out or used to expand the living space for a large family. The bottom floor is a unique feature of an East Coast retreat - a fully equipped games room and wine room which is also accessible from the main landing area of the home.
