

BATHSHEBA, BLUE LAGOON

 Saint Joseph, Barbados

Blue Lagoon, Bathsheba* overlooking one of the worlds best surfing sites, Soup Bowl. Built on stilts with an unobstructed view of the Atlantic Ocean. This cottage has two double bedrooms, a full bathroom and separate powder room, a fully equipped modern kitchen and dining area. The casual open plan layout includes a comfortable lounge area and an expansive covered outdoor deck with its incredible view. Also included within the cottage is a large mezzanine loft which can be used as another bedroom area, which always proves popular with the kids.

Being almost triangular, Barbados has three specifically and spectacularly different coast lines, the hustling bustle of the South coast, the tranquil luxury of the west coast, and for many, the jewel in the crown, the rugged beauty of the east coast, with the cooling N. E. trade winds gently pushing your hammock in rhythm with the crashing surf and the clink of ice in your glass!
