

GREEN POND

 Saint Andrew, Barbados

Green Pond is a 6.5 acre lot with stunning views over Green Pond and miles of beach in either direction in a very quiet, secluded area. Great opportunity to own and sustainably develop this lot of land in St Andrew. The lot is flat and irregular in shape and is adjacent to The Walkers Reserve Project. The land has previously approved plans to build an eco-friendly, off the grid, 5 bedroom house. The lot has a water course running through it on its Eastern boundary. Truly is a magical place to live or invest in!
