

## MARTINS BAY

Saint John, Barbados

\*\*\*View Video Below\*\*\*

This hillside oceanfront lot offers a phenomenal view of Martins Bay, one of the most picturesque of the eastern coastlines. Flanked by coconut trees and accessed by an undeveloped road, it's as close as you can get to privacy, seclusion and prime ocean frontage simultaneously. The remains of an old structure serve as an excellent idea for the best positioning of a new house. Not only will it offer a superior vantage point but it will enhance the feel of being enveloped by a tropical paradise.
