

WINDWARD GARDENS

 Saint Philip, Barbados

This is an excellent investment opportunity to own a revenue property in Windward Gardens, St. Philip. The clever design offers at the lower level a completed 2 bedroom 1 bathroom home with a designated indoor laundry area. An open plan design is accentuated by the focal point, a sunken living room. Additionally, there is provision for an upper level master suite to be added ... this will feature a panoramic view of the South Coast. A separate one bedroom one bathroom upper level apartment which needs to be completed provides the perfect opportunity to generate rental income. Alternatively, the property may be configured into a large family home. The relatively new development is peaceful and consists of beautiful modern homes. It is a child friendly neighbourhood just about 5 minutes' drive from Six Roads and all its' amenities, including the new JB Simpson complex.
