

EASY HALL, LOTS 4 & 5

 Saint Joseph, Barbados

Nestled among tall palms and tropical foliage, this 3 bedroom 3.5 bath, tri-level home with lots of covered and open outdoor entertaining areas is ideal for those who enjoy a private and tranquil living environment.

Originally built in the early 1980s it has been extensively remodeled. Most recent is the large fully updated kitchen.

There are two offices and a TV room with bath on the lower level. One of the offices could be converted back into a bedroom if so desired, making it a 4 bedroom home.

Entry to the house is via a coral stone paved walkway which has a very warm, landscaped lighting at night.

There are two koi ponds, one of which could be converted into a swimming pool.

Photo voltaic solar system, stand-by generator, and the back up water supply are very handy.

Home stands on approx. 1.3 acres and is fully enclosed.
