

SCHOONER BAY NO. 203 - LUSCA

Schooner Bay is one of the most luxurious beachfront properties on the west coast. The development is set on a secluded beach in a wonderfully picturesque setting and the apartments have been completed to the highest standards. The landscaped grounds include a free-form swimming pool in glorious gardens with direct access to the beach.

This completely refurbished luxury apartment is named after a legendary sea creature of the Caribbean, 'Lusca'. The apartment has access to a large communal swimming pool and is just steps away from an expansive and deserted sandy beach. The living room is an open complex which opens up onto a patio overlooking the pool and beach. There is a laundry room, a fully equipped kitchen with brand new stainless steel appliances. There are three luxurious bedrooms which include air conditioning and private en-suite bathrooms.

While staying at Schooner Bay you can enjoy a range of activities which include relaxing in the jacuzzi, visiting the gym and swimming in the free-form pool or the tranquil waters of the Caribbean Sea. The poolside and beach have sun beds exclusively for Schooner Bay use. Watersports may be enjoyed by arrangement with Cobblers Cove Hotel, a short walk away, which also boasts an excellent bar and restaurant.
