

PORT ST. CHARLES NO. 133

Barbados

No. 133 is one of only four luxury villas located on the Island in the middle of the lagoon.

Uniquely positioned, this 3 bedroom, 3 and a half bathroom villa has a secluded courtyard, with a fountain set among lush foliage. On entering one immediately gets the feel for spacious and tropical open plan living.

The living room,(which also enjoys views to the south of the lagoon) dining room and kitchen are on the ground floor level and lead outside to a private patio which faces west and to a wide expanse of the lagoon. An additional 200 sq ft has been added for a separate dining area with french doors and windows affording tranquil views of the yachts moored outside.

Two guest bedrooms are located on the middle floor and the master bedroom on the top floor which has its very private sun terrace.

The living room and all hallways are mirrored, thereby extending that expansive feel. Villa No. 133 is being offered partially furnished with living room suite, dining room suite and all patio furniture. The master bedroom contains a custom designed cupboard and shelving unit along with a queen size divan.
