

## PORT FERDINAND (TWO BEDROOM)

Port Ferdinand Marina and Luxury Resort is a 16-acre, exclusive residential marina community located just north of landmark marina, Port St. Charles, on the Barbados Riviera. Port Ferdinand offers a lifestyle proposition unmatched by any other development in the Island. It's Luxury with Soul, where the comforts of home meet unrivalled amenities – all at close quarters. The development features 120 berths and 82 luxury residences, each with grand views of a captivating horseshoe-shaped marina and the turquoise Caribbean Sea. Dine in style at our fine dining restaurant, spend a day being pampered in the spa, head out to sea on a paddleboard adventure, take a picnic from the gourmet store on your yacht for a day or simply relax at home.

All of the residences are positioned above the dock, thereby benefiting from increased privacy and security, as well as an optimum view across the marina. The first phase consists of 32 homes including two, three and four bedroom layouts, with private berths starting at 60 ft. in length plus plenty of storage including a dedicated boat storage room and owner's storage room.

Developer UNNA Resorts has worked with award-winning Jada Builders Inc. in the planning and delivery of Port Ferdinand, experts who have delivered many successful communities throughout the region such as the well-known Port Saint Charles Marina and the beachfront resort Saint Peter's Bay.

Port Ferdinand is part of an exciting master plan for the northwestern region of Barbados. For residents this means a future of expanding links between a collection of UNNA developments and greater access to amenities and services in the area. Further, UNNA's development plan ensures the areas' signature Barbadian charm is retained.
