LOWER GREYS HOUSE

Christ Church, Barbados

A two acre hidden gem nestled in the country side, yet close to the commercial centers of Bridgetown and Warrens, Lower Greys House offers a stunning and serene plantation experience. Expanded from a Barbadian “single house”, this historic property once housed members of the illustrious Senhouse family. The present owner purchased the property in 2007 and beautifully restored and expanded it to what it is today. It sits at the end of a cul-de-sac which provides a private retreat.

On entering the main gates of this exquisite estate home, you are greeted with a central pond and beautifully landscaped gardens. The main house consists of 4 bedrooms, 4.5 bathrooms with one of the bedrooms converted to a studio apartment. The large living area with a tray ceiling opens onto the spacious wooden patio that runs the length of the home and overlooks an expansive garden. The dining room that houses an antique dining table with seating for 12, leads onto its own patio with an adjacent koi pond. The kitchen leads onto another large covered patio with bar area which extends to the pool and is ideal for entertaining. Just beyond the pool area sits a quaint Chattel House which adds to the charm of the property. The home boasts of exposed coral stone walls throughout and original wooden floors.

In 2016 the detached 2 bedroom 2 bathroom cottage to the west of the main house was completed. It offers a self-contained kitchen and open plan living and dining room area and gorgeous country views from the patio. The garage area and massive storeroom is below.

This historic plantation estate enjoys cool breezes, luscious grounds with many different flowering plants, 2 Koi ponds, and a double garage. It was definitely a labour of love transforming the past structure into something more modern while keeping the integrity of the plantation feel.

The furniture is included with the sale.
