

## SALTERS SUGARLANDS

 Saint George, Barbados

This site available for sale is centrally located in St George and is divided into 5 separate lots. Lots D and E have permission to be each further subdivided into 4 residential lots. The land is spread over 5 acres with open spaces and a couple of wooden homes which would need repair. On Lot B there is also a large actively operating kennel, currently housing rescue dogs.

Because it's so conveniently located with easy access to the ABC highway and amenities to the south coast and Warrens, it's ideal for a townhouse and apartment development or for further subdivision into smaller residential lots.
