

MILLENNIUM HEIGHTS, ST. THOMAS - LUXURY HOME IN A GATED COMMUNITY

Centrally located in close proximity to all amenities, a few minutes away from major highways and a short drive to the UWI. This gated community is home to some luxurious residences and the featured home is no exception.

As you enter from the main double doors, there is a study to the left and a sunken living area directly in front of you. To the right, there is powder room, storage room, laundry (which leads out to a drying yard) and home gym. Double doors off the living room open out to a huge patio and pool deck. There are 2 ensuite bedrooms on this floor.

Upstairs is where the main living happens. The beautifully laid out space comprises the fully fitted kitchen with solid surfaces, dining area and another lounge area, definitely the epitome of serenity. A large patio overlooks the pool and gardens.

The spacious main suite occupies a wing of the residence. The bedroom is quite comfortable with access to the patio and its adjoining bathroom enjoys a jacuzzi tub and separate corner shower.

With four ensuite, and air conditioned bedrooms this home is just right for your large family or for entertaining overseas (or local) guests. A fully contained suite over the garage is just what you need for your in-laws or adult child as it offers entry from the parking area below.

Rent includes pool and garden maintenance.
